

Public Works and Engineering Department

The Public Works and Engineering Department invites anyone to use this Bid Sets web page to view and/or download advertised construction project Bid Sets. The Bid Sets are only available at this location until the City Council awards the construction contract to the lowest responsible bidder.

Since some files that accompany each Bid Set are very large, it may take a few minutes to download.

You can also view or download a [Plan Holder List](#) (showing all users who downloaded any construction project's Bid Set) or take a look at the [Forecasted Advertisements](#) and [Actual Advertisements](#) of Public Works and Engineering Department construction projects.

Now available: [The PWE Bid Sets Website Frequently Asked Questions](#) help file.

Thank you for your participation.
